

## Amendment #1 to J/80 Fleet 1 2015 Sailing Instructions

Effective Date: June 18, 2015

### **Retirement of the j80fleet1alerts mailing list**

The commitment to send succinct cancellation or delay notices to the j80fleet1alerts email list is hereby removed. The ad-hoc text message/phone tree is considered more useful at this point.

### **Boat Substitution Membership Requirement**

The requirement that in order to make a substitution for a registered boat the substituted boat's owner must be a LWSA member is hereby removed.

Background: the membership requirement was removed last year by amendment, but the original word document was inadvertently not edited. The LWSA board has decided that membership will not be required for participation in any of our programs in order to emphasize that we exist to benefit the public, not merely our members. We would still encourage all participants to join or donate what they can to the LWSA, but this is not required.
